

Eclectic Refractions

Jacqueline Duncan

Uma celebração da natureza e cultura

A exposição "Eclectic Refractions" é um mergulho profundo na visão única de Jacqueline, inspirada pela natureza que envolve a Old Farm Mill, um antigo moinho do século XVIII às margens do rio Dart, onde ela mora e trabalha. A roda d'água está no coração da casa e fornece toda a energia.

A natureza e o rio são as principais forças motrizes por trás de sua arte. Duas vezes por dia o leito do estuário é revelado e oculto pela subida e descida da maré: um movimento contínuo e fluido que apresenta uma composição em eterna mudança.

Na obra há muitos detalhes, mas também há uma sensação de movimento, geometria e fluxo. Há um enorme jogo óptico acontecendo, não são obras de arte estáticas, elas se alteram de acordo com a fonte de luz e a distância pela qual você observa a obra.

Também fazem parte da exposição três esculturas em madeira e metal que representam o movimento, o diálogo entre o racional e o orgânico, a estrutura e o fluido, o feito pelo homem e a natureza. O diálogo entre dois materiais diferentes e a relação inerente que isso envolve.

The background features a collage of various paper sculptures and frames. Some are simple white or light-colored rectangular frames, while others contain intricate, colorful patterns or abstract designs. The elements are arranged in a dynamic, overlapping fashion, creating a sense of depth and artistic complexity.

The background features a collage of botanical illustrations. On the left, a detailed drawing of a stem with small, circular nodes is visible. The top center shows a cross-section of a leaf with a network of veins and numerous small, oval-shaped cells. On the right, there are drawings of flower parts, including what appears to be a cross-section of a flower showing internal structures and a drawing of a flower bud or petal with fine, wavy lines. The overall style is that of a scientific or educational reference book.

Special thanks

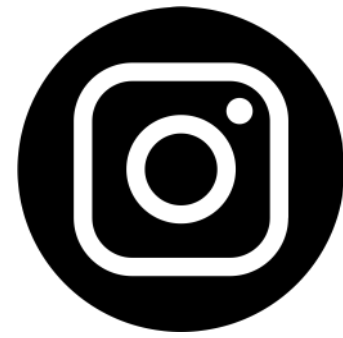

"Estou profundamente realizada e grata pela realização da minha exposição Eclectic Refractions. Cada obra refletiu a celebração da natureza e da cultura que me cercam, representadas em cada uma das peças.

Agradeço pelo esforço e dedicação de todos que contribuíram de alguma forma para que essa exposição pudesse finalmente sair do papel.

Em especial, gostaria de agradecer a Sergio Caribe, Kelly Costa de Nascimento, Leticia Costa de Nascimento, Titta Souza, Talita Yuki, Yasmin Santos de Alemida, Paulo Varella e sua equipe."
